

Steps

After reviewing the resources for this assignment, do the following steps...

1. Start a Word document, making sure you start with your name, the assignment name and the due date.
2. Using the instructions in the resources, establish a domain and forest using your Windows Server installation on your VirtualBox.
3. Take a screenshot of the administrative screen showing active directory set up complete. The screen shot can be submitted as a .JPG, or can be inserted in a .DOCX or .PDF file for submission
